

St Edward's School

Unity - Achievement - Faith

18th June 2020

Dear Parents and Carers,

I am writing to update you on some changes to our schools Management Information System (MIS).

From July 1st 2020, we will be moving from Cloud School to a new MIS system. SIMS is used by a large number of schools across the country and will work in a similar way to Cloud School in the way we manage our data and information at St Edward's.

As parents and carers, you are currently able to access your son or daughter's timetable, reports, attendance and behaviour by logging onto Cloud School from home. However, from 30th June, you will no longer be able to access this information with your current log in details. As part of the transition, all data is currently being moved across to SIMS but if you would like to keep any reports or documents in their current format, please download these by 30th June. If you require support with this, please email progressview@st-edwards.poole.sch.uk.

In September, we will be sending out details of a new Parent/Carer App which will enable you to again have access to key information for your son or daughter.

Please do contact the school via the email address above if you have any questions regarding this change.

Yours sincerely,

Chris Barnett
Deputy Headteacher
