

St Edward's School

Unity - Achievement - Faith

September 2023

Dear Parents and Carers

Year 9

Your child will be experiencing four areas within Technology during the year. All students take part in the manufacturing process in each of these areas and they will be encouraged to take pride in their finished outcomes. As a result, students ask to take ownership of their products and take them home. This does, however, create a strain on the department's resources and we ask for a voluntary contribution of £5.00 for the whole academic year towards the cost of the materials used.

Students will be making a variety of products using papers and board, smart materials and plastic as well as using sundry items in Food to support their cooking.

This is a voluntary contribution and therefore if you do not wish your child to bring home the finished products there is no requirement to contribute. Students identified as Pupil Premium need not make the contribution.

Contributions should be made through the school WisePay system. If you have any questions in regards to this or any aspect of the Technology curriculum please feel free to get in touch.

Thankyou in advance for your support.

Yours sincerely

Mrs J Morris
Subject Leader, Technology
